

Oxford Division BMA

Dear Colleague

I am writing to you to let you know that I was recently honoured to become President of the Oxford Division of the BMA. I hope to hold this post for the next two years.

During this time, we want to re-vitalise the division in order that we create an opportunity for doctors from all parts of our profession to meet in a variety of formats, both social and educational. The last few years have seen growing isolation between doctors in different walks of life, and we hope to be able to reverse this trend.

Initial events include a talk on 'The Hazards of Homeopathy' by Professor M Baum, 7.30pm 15th October in Lecture Theatre 1, JR. This is followed by our annual dinner at Rewley House with speaker Professor Ken Calman on 19th November. We will advertise all meetings and events to both BMA members and to non-members. We hope that non-members may become members, and will see the activities of the division as a good reason for joining. If you are a member please ensure your email is correct on the BMA website so we can inform you of events.

One event that we would like to organise is a ball next summer, probably in July. We hope that this will be one of the high points of our annual calendar, and would like to see as many of you there as possible. Planning is at the earliest of stages, and to help us consider possible venues, I'd be most grateful if you would let us know whether you would be interested in attending such an event; this will help us to choose a suitable venue. If you would be interested in attending, please send an email to bmaball@ntlworld.com.

Yours Sincerely

Dr Prit Buttar
President Oxford Division BMA
