

LMC note on GPSOC

GPSOC

Please see the letter from Paul Cundy (GPC IT lead:

[GPC view on GPSOC](#)

The GPC recommends that all practices use GPSOC arrangements

This is the default position, so those not wishing to be involved need to notify their PCT. The GPC however, cannot see why any practice would want to do this

Signed agreements are needed between PCT and accredited national suppliers and between PCT and practices. These national documents have been approved by the GPC and will be available soon.

The timescale is tight, with CfH requiring both types of agreement to be signed by the end of April 2008.

Please note that practices still have choice of system

I am communicating with Thames Valley IT leads to ensure practice needs are met and the system is understandable to all
