### LMC Elections

NB, HvO, MC & SB have confirmed their intention to stand. DG has indicated that workload pressures with training etc will force him to resign.

**Action: NB to chase others to check if self-nomination has been sent to secretariat**

### Enhanced Services

Committee discussed NB's report on further negotiations with NOPP on ES specifications for this year.

- Awaiting formal response on specification amendments & Read codes
- To chase up formal notification of these to practices

- Discussion about pricing of insulin, basket & neonatal check ES: to make sure this remains on agenda for next NOPP-LMC meeting
- Alcohol misuse LES specification for 2004-05 was never promulgated; how has this affected NE practices' payment for last year?

**Action: NB to chase up with NOPP contacts**

### Choose & Book

HvO reported her practice's experience of hardware installation (public money being spent extravagantly?). Note that practices expressing even remote interest are being regarded as "signed up" by PCT/LIS team.

### Practice Based Commissioning

Variable (& waning?) interest from practices, especially in the Banbury district. Main current focus seems to be around making sure NOPP/practices are not billed erroneously for hospital activity. Whilst this is important, NB concerned that GPs will lose interest if the emphasis isn't shifted to improving clinical services

### Hospital Liaison Meeting

Rick Godlee is setting up with senior medical manager in ORH (NB will attend too).

**Action: Please inform NB if you hear of any local examples of how hospital colleagues work adversely affects our working lives (e.g. hassles in accessing admissions, discharge letter concerns etc).**

### LMC Conference Report

MC fed back some themes

### Date of Next Meeting
