

Primary Care Surgery Skills Course for GP's/GP'sI's and GP Registrars
(www.primarycarentrainingacademy.co.uk)

I am writing to you with respect to the above surgery skills course that has been approved by the Regional Postgraduate Deanery. We are inviting you to distribute the attached details of this course to your GP colleagues. The course is particularly suited to GPs, GP'sI's in Dermatology and GP registrars interested in either updating their skin surgical skills. The course is next due to take place 13th-14th October 2007 in the Malmaison Hotel, Birmingham. I am delighted to attach a copy of the course program for the Primary Care Surgery Skills Course. Full details are also available from the above website.

We would be most grateful if you could forward the attached details to the VTS's in the region for cascading out to GP's and GP registrars, in particular those doctors who are interested in improving / updating their dermatological surgery skills. All abilities are catered for and surgical instruction during the workshop is tailored to what delegates wish ie from updates on basic skin suturing techniques to local skin flaps and z-plasty!

With Practice Based Commissioning an increasing amount of dermatology and minor skin surgery is being undertaken in the community ie Primary Care. This course aims to improve delegates own surgical skills and teach alternative techniques, as well updating non-surgical treatments of some skin lesions.

This meeting will provide high quality practical training aimed at those GP's who have a specialist interest in Dermatology and Minor Skin Surgery. The meeting is very interactive and informal. There will be between 20-24 GP delegates.

Training will be provided by a team of enthusiastic highly experienced plastic surgeons and dermatological surgeons.

The venue has fantastic conference facilities and an excellent area has been set aside for exhibitor stands. All delegates will be actively encouraged to visit the exhibitors.

If you require any further information then please do not hesitate to contact me either by email or on my mobile 07974 943 860.

I appreciate your kind help and perhaps we may even see you there!

Many thanks and best wishes

Yours Sincerely

Mr Sultan Hassan FRCS(Eng) FRCSEd MB ChB
