

Clinical Pharmacist Opportunity

The Westongrove Partnership | 30 Hours per Week

www.westongrove.com

The Westongrove Partnership is a well-established, forward-thinking teaching practice caring for approximately 34,000 patients across three sites in the beautiful Chilterns area. Our multidisciplinary team is committed to delivering outstanding patient care while supporting professional development, innovation and staff wellbeing.

We are looking for an enthusiastic and proactive Clinical Pharmacist to join our expanding team and play a key role in medicines optimisation, prescribing safety and improving patient outcomes across the Partnership.

Why Westongrove?

- Join a highly experienced and supportive multidisciplinary team including GPs, ANPs, Nurses, Paramedics, Pharmacists, Physiotherapists and Health Coaches.
- Be part of a respected teaching and training practice with a strong educational focus.
- Work closely with experienced clinicians who are committed to collaborative patient care.
- Opportunity to influence and develop pharmacy services across a large and progressive practice.
- Protected learning time and ongoing professional development support.
- A genuinely friendly and sociable team culture with a strong focus on wellbeing and work-life balance.

The Role

You will work closely with GPs and the wider multidisciplinary team to support patients in getting the best outcomes from their medicines.

This is a varied and rewarding role that combines clinical work with medicines optimisation, prescribing support and quality improvement activities. You'll have the opportunity to make a tangible impact on patient care whilst helping shape future pharmacy services within the Partnership.

Key Responsibilities

- Structured clinical medication reviews for patients with complex needs and polypharmacy.
 - Patient-facing medication review clinics and telephone consultations.
 - Medicines reconciliation following hospital discharge and care transfers.
 - Prescribing safety initiatives and quality improvement projects.
 - Responding to MHRA alerts and supporting formulary implementation.
 - Supporting prescribing audits and medicines optimisation programmes.
 - Providing specialist medicines advice to clinicians and patients.
 - Contributing to training and development across the clinical team.
-

We Offer

- Competitive salary of **£47,000–£49,500 pro rata**.
 - NHS Pension Scheme.
 - Support to complete CPPE pathway requirements.
 - Funded CPD and professional development opportunities.
 - Protected learning time.
 - Career progression within a growing and innovative practice
 - Support for Independent Prescribing development where appropriate.
 - A supportive team culture with a genuine focus on wellbeing.
-

What We're Looking For

- GPhC-registered Pharmacist.
- Experience of clinical pharmacy, ideally within primary care.

- Independent Prescriber qualification desirable, or willingness to work towards one.
 - Strong communication and clinical decision-making skills.
 - A collaborative approach and commitment to patient-centred care.
-

How to Apply

Whether you're an experienced Primary Care Pharmacist or looking to further develop your career within General Practice, Westongrove offers an excellent opportunity to join a supportive, innovative and forward-thinking organisation where you can make a real difference to patient care.
