

THE DOWNLAND PRACTICE

EASTFIELD HOUSE SURGERY

STRAWBERRY HILL MEDICAL CENTRE

SALARIED ARRS GP – 4 SESSIONS

The A34 PCN is a Primary Care Network comprising three well run, established and successful practices, two urban and one rural, set within the heart of West Berkshire. Newbury is a thriving Market Town located along the M4 corridor. The region is relatively affluent and benefits from high employment levels. We are situated in the M4 tech corridor, notable employers include Vodafone and Stryker. Shopping, local amenities and schools are good. Reading is just a 30-minute drive away and the town and surrounding villages are ideally located for easy access into London, down to the West Country and north to Birmingham, Manchester and beyond.

We are a forward-thinking PCN. We are passionate about providing the best possible care to the 48,000 patients we have registered across the three practices. We believe in providing excellent clinical care while enjoying a sensible work life balance.

With the recent addition of General Practitioners to the ARRS scheme we are looking to recruit a newly qualified salaried General Practitioner, on an initial short, fixed term 6 week contract based at Strawberry Hill Medical Centre. This is an exciting opportunity for a newly qualified GP to gain experience of working within a busy urban practice.

We are well set up with West Berkshire Community Hospital nearby for walk in x-ray service, outpatient clinics and palliative care beds.

Days of the week worked are negotiable. The day (two sessions) would consist of 25 patients face to face in line with BMA safe working and 1 visit if needed. Visit rates are low. The patients will be a mix of acute and routine patients, with a preference for acute. You will not be holding a list or being duty doctor.
