

Clinical Pharmacist (Independent Prescriber Preferred)

Salary: Competitive, dependent on experience and qualifications

Hours: 25 hours per week negotiable

Location: Water Meadow Surgery, Chesham, HP5 1ET

Are you a motivated and patient-focused Clinical Pharmacist looking to make a real difference in primary care?

We are seeking an enthusiastic and proactive Clinical Pharmacist to join our friendly, supportive and forward-thinking GP practice. This is an exciting opportunity to become an integral member of our multidisciplinary team, helping to deliver high-quality, safe and effective patient care.

We would particularly welcome applications from pharmacists who hold an Independent Prescribing qualification, although we are also keen to hear from experienced Clinical Pharmacists who are interested in developing into this role.

The Role

As our Clinical Pharmacist, you will work closely with GPs, nurses and the wider practice team to optimise medicines management, improve prescribing quality and support patients with long-term conditions.

Your responsibilities will include:

- Conducting structured medication reviews.
- Managing prescribing for patients with long-term conditions.
- Supporting medicines optimisation and cost-effective prescribing.
- Responding to medication queries from patients and clinicians.
- Reviewing hospital discharge summaries and medicines reconciliation.
- Managing repeat prescribing processes.
- Undertaking clinical audits and quality improvement initiatives.
- Supporting the implementation of national and local prescribing guidance.
- Providing education and advice to the clinical team.

For candidates who are Independent Prescribers, there will also be opportunities to manage your own clinical caseload and run specialist clinics appropriate to your experience.

About You

You will:

- Be registered with the General Pharmaceutical Council (GPhC).
- Have excellent clinical knowledge and communication skills.
- Be organised, adaptable and committed to delivering high-quality patient care.
- Work effectively as part of a multidisciplinary team.
- Ideally have experience in general practice or primary care, although applications from hospital and community pharmacists are welcomed.

We Offer

- A supportive and friendly working environment.
- Opportunities for professional development and further training.
- Flexible working arrangements.
- NHS Pension.
- Annual leave in accordance with NHS Terms and Conditions (where applicable).
- The opportunity to help shape and develop pharmacy services within our practice.

If you are passionate about improving patient care and would like to join a practice where your contribution is valued, we would love to hear from you.
